

# Ultra sharp and fast !

## Share happy moments online in FHD resolution !

## The Blizzard A330 Pro Webcam

Part of the Blizzard Pro-line, the A330 Pro webcam features a field-of-view of 90-degrees and is built with a FHD camera and superior Image Signal Processing (ISP).

A resolution of 1920 \* 1080 ensures that the image is clear and razor sharp.

Color temperature is fixed at 5500K which is the European daylight temperature.

At 30fps, movements appear smooth and natural.

The built-in microphone with noise reduction ensures that the intelligibility is very good without a lot of ambient noise.

### Features

- FHD (1920\*1080) video quality at 30 frames-per-second
- Color temperature 5500K (European daylight temperature)
- 90-degree diagonal field of view
- Plug-and-play USB-C connectivity (separate cable USB-C to USB-A)
- Sensitivity 3300 mv/lux-sec
- Microphone with noise reduction
- Multiple mounting options

# Blizzard A330 Pro Webcam

## Product specifications

Resolution	FHD (1920*1080) 30fps
Power consumption	100mA at 1920*1080 30fps
Sensor size	1/2,5 Inch CMOS-Sensor
Sensor model	JX-F23 Silicon Optronics
MAX SNR	≥37dB
sensitivity	3300 mv/lux-sec
AEC/Gain/White balance	5500K
Maximum refresh rate	FHD 30 fps
Lens Size	14mm
Focus length	3mm (distortion-less lens)
Diagonal field of view	90 Degrees
WDR-Technology	No
Number of microphones	1 (mono)
Operating temperature (ambient)	-10°C to +60° C
Dimensions	150mm*30mm*55mm
Interface	USB Type-C
USB Cable	USB Type-C - USB Type-A 1.5m

## Feature spotlight

### FHD 1080P video quality at 30 frames per-second.

Brings FHD video to video calls which ensures that the image is clear and razor sharp.

### USB type C connection for higher bandwidth.

USB type C connection to support the latest standard.

## USB Type-C

### Plug-and-play USB-C connectivity

Easily connects to PCs or Macs with no additional software required. Camera will be shipped with separate USB-C to USB-A cable.
