

# Wide, ultra sharp and fast !

## When quality of voice is just as important as QHD video resolution!

Analog

## The Blizzard A355-S Pro Webcam

Part of the Blizzard Pro-line, the A355-S Pro webcam features a wide field-of-view (95-degrees) and is built with a QHD camera and superior Image Signal Processing (ISP). This professional camera support WDR technology which helps you look your best in any illumination, from low light to direct sunlight. Color temperature is fixed at 5500K which is the European daylight temperature. The built-in dual **analog** microphones with noise reduction ensure that your voice sounds very natural, in line with the excellent video quality.

### Features

- QHD (2560\*1440) video quality at 30 frames-per-second
- 95-degree diagonal field of view
- Color temperature 5500K (European daylight temperature)
- Plug-and-play USB-C connectivity (separate cable USB-C to USB-A)
- A bright CMOS sensor enables very high image quality even with normal office lighting
- WDR Technology 30-75dB
- Dual analog microphones with noise reduction
- Multiple mounting options

# Blizzard A355-S Pro Webcam

## Product specifications

Resolution	QHD (2592*1944) 30fps
Power consumption	300mA @ 2592*1944 30fps
Sensor size	1/2,8 Inch CMOS-Sensor
Sensor model	imx 335 (Sony)
MAX SNR	≥39dB
sensitivity	2400 mv/lux-sec
AEC/Gain/White balance	5500K
Maximum refresh rate	QHD 30 fps
Lens Size	14mm
Focus length	3mm (distortion-less lens)
Diagonal field of view	95 Degrees
WDR-Technology	30-75dB
Number of microphones	2 x analog (stereo)
Operating temperature (ambient)	-10°C to + 60° C
Dimensions	150mm*30mm*55mm
Interface	USB Type-C
USB Cable	USB Type-C - USB Type-A 1.5m

## Feature spotlight

### QHD 1440P video quality at 30 frames per-second.

Brings QHD video to video calls which enables expressions, non-verbal cues and movements to be seen crisp clear.

### USB Type-C

### USB type C connection for higher bandwidth.

USB type C connection to support higher bandwidth for 4K video

### Plug-and-play USB-C connectivity

Easily connects to PCs or Macs with no additional software required. Camera will be shipped with separate USB-C to USB-A cable.
