Analog

The Blizzard A380 Pro Webcam

Part of the Blizzard Pro-line, the A380 Pro webcam features 1 / 2.8" CMOS distortion free HD lens. It has a resolution of 4k (3840*2160) and is using a super wide 112 degree angle of view lens. It brings a crisp clear picture for users and can be used as a tool for live network, video calls and video conferences.

The built-in dual analog microphones is equipped with intelligent noise reduction and makes that the sound quality is in line with the video quality.

The color temperature is automatically set between 2800 and 7000K, making it appear natural at all times.

Features

- UHD 4K (3840x2160) video quality at 30 frames-per-second
- The color temperature is set automatically (2800-7000K)
- 112-degree diagonal field of view
- Plug-and-play USB-C connectivity (Shipped with a separate cable USB-C to USB-A)
- Dynamic range of 45dB
- Perfect combination with bigger (4k) screens
- Dual analog microphones to make your voice more clear and natural
- Multiple mounting options

Blizzard A380 Pro Webcam

Product specifications

Resolution	UHD 4K 3840*2160 30fps
Power consumption	400 mA @ 3840*2160 30 fps
Sensor size	1/2,8 Inch CMOS Sensor
Sensor model	IMX415 Sony (8.5 MP)
MAX SNR	≥41dB
sensitivity	2400 mv/lux-sec
AEC/Gain/White balance	Automatic (2800-7000K)
Maximum refresh rate	UHD 30 fps
Lens Size	18mm
Focus length	7.5mm (distortion-less lens)
Diagonal field of view	112 Degrees
WDR-Technology	0-72dB
Number of microphones	2 x Analog (stereo)
Operating temperature (ambient)	-10°C to + 60° C
Dimensions	150mm*30mm*55mm
Interface	USB Type-C
USB Cable	USB Type-C - USB Type-A 1.5m

Feature spotlight

UHD 4K video quality at 30 frames per-second.

Brings UHD 4K video to video calls which enables expressions, non-verbal cues and movements to be seen crisp clear.

USB Type-C

USB type C connection for higher bandwidth.

USB type C connection to support higher bandwidth for 4K video

Plug-and-play USB-C connectivity

Easily connects to PCs or Macs with no additional software required. Camera will be shipped with separate USB-C to USB-A cable.
